Sprint 3 AI Use Disclosures

Template Generation
AI Tool Used: ChatGPT
PM AI Protocol Stage: Drafting and Restructuring
Purpose of AI Use: Used to create an initial template and organize sections for sprint 3 deliverables.
Changes or Rejected Output: The templates were reviewed and adjusted to fit the assignments. All research findings and content were created by the team.

Website Implementation
AI Tool Used: Antigravity (Agentic AI)
PM AI Protocol Stage: Uploading work
Purpose of AI Use: Used to transfer document content directly to the website and to add new sections to the React site.
Changes or Rejected Output: Antigravity was strictly used for formatting and migrating existing content, not generating new PM content.

Website Implementation
AI Tool Used: Antigravity (Agentic AI)
PM AI Protocol Stage: Visual Improvements
Purpose of AI Use: Used to create new view to make information easier to digest
Changes or Rejected Output: Antigravity was strictly used for design of the site and Moving content, but content was not generated by AI.

Handwritten Interview Notes
Member: Isaac Padila
AI Tool Used: ChatGPT
PM AI Protocol Stage: Interviews
Purpose of AI Use: Used to transfer my handwritten notes to computer text.
Changes or Rejected Output: All interview notes were written by myself. Opinions and behavior were identified by me.

Handwritten Interview Notes
Member: Juan Reyna
AI Tool Used: Claude
PM AI Protocol Stage: Interviews
Purpose of AI Use: Transferring handwritten notes to a file on my computer while also organizing them.
Change or rejected Output: Interview notes were handwritten by me during the interviews. Manually adjusted the notes that came from the AI, removing the added parts from AI and only keeping my original notes.
