Interview Notes – Juan

Boxing Interview

Opinions

- Kinda like football, rugby, soccer, and boxing. Mostly physical
- Step tracker similar, doesn't see how it will improve, due to self-reflection
- Performs activities for the fun/love/skill/protection. Not for fame/awards
- Small setbacks don't demotivate them at all
- Can see it for some, but depends on the person and if materials are there. Will of the person
- Doesn't share with others, doesn't like the pressure, would like to overcome that

Behaviors

- Haven't done much since last month, school obstacle
- Set up in Juarez, goes to places that host those sports, box gyms
- Found out about those places by recommendation from friends
- Gatekeeps locations, for fast access, no lines
- Able to determine progress by performance in training/gameplay
- Divides into groups, each group performs different training, rotates, 2 hours
- Not really, repeatable until failure
- Paid classes
- Took a while to learn hand wrap, though it was mummy hand, taught by coach
- In person and video sharing from friends' progress

Piano Interview

Opinions

- Difficult to know improvement, would like to view quantitative statistics or reinforcement from others
- Writing it down, tends to forget without scribed records

- Jewelry activity: feels improvement from more creativity
- Being able to wear their products from their work

Behaviors

- Lately playing piano, last time ~3 months ago, piano class, end-of-year concert
- Initially, learn and see progress by playing a whole piece
- Friends? Records kept by video on phone
- Quantity, have recording later
- No time for reviewing/documenting
- Nope, viewed a piano app, but considered
- Has a friend that keeps track and documents daily
- Found a spare keyboard, made jewelry from old jewelry scraps for mom, self-taught

Golf Interview

Opinions

- Considering taking golf lessons, one major consideration will be time
- Does consider using an app that allows…

Behaviors

- Done: golfing, leisure time, relaxing at home or movies
- 2 months ago, last time doing the activity
- Picked a course, reserved a tee time (schedule play time)
- Chooses mode, reserves by call or phone
- Keeps practicing or swings anywhere
- No written progress/tracking, but uses memory, sometimes records video. Compares swing form with past videos
- Performs detailed analysis for videos
- Golf apps track some stats, such as power, ball tracking, etc. Uses those for analysis sometimes
- Cannot say, doesn't remember trying other activities
- Depends, often usually goes on weekends, weekly basis

- Got into golf from family and started going on their own
- Has friends that share their golf days
- Knows a few that track their golfing
- Some have paid subscriptions for more tool analysis
- Tried going back to boxing, but work got in the way
- Does use online free resources to learn golfing
